

# Not made in China

**Welcome to the Not Made In China's Sonorous Restaurant**

**A musical performance cooked by**

*Chefes de Chefes*

Not Made in China is a group of 4 chefs that cook music since 2008.

Based on the idea that music is food for the soul, the “chefes de chefes” offers sonorous dishes, seasoned with condiments rich in rhythms. Its flavors are inspired by a wide variety of styles that will please your palate and your ear with the smell of sounds melting in it.

In a bite, it tastes like a funky band, with sprigs of swing, sprinkled with blues and with a pinch of surf. However, if you listen carefully, you will feel remnants of Latin sounds like bossa nova or agogo and certain aromas of Andean music. There are also wastes of cumbia and sensations of reggae in some bites.

Prepare yourself to enter to the Sonorous Kitchen where you will taste the flavors that the “chefes de chefes” have in the oven. Here you will live the literal experience of eating the music of Not Made In China.
